within the commitment (dashed): autonomous, audited, digest unchanged
Epistemic adaptation
consolidation may sharpen behaviour, never widen authority
Capability acquisition
skills enter by an effect-checked contract
Federation
state crosses only through signed export and import
Handoff, supplier swap, committed-state rollback
the signed path: a new body, substrate or restored digest
Governed forgetting
removal is signed, audited and reconstructable
Deployment, recovery & replay
canary and rollback leave the digest unchanged
identity digest
H(commitment)
sha256:7f3a…c91
frozen · public · signed
signed MODIFY re-issues or restores the digest
